

## Severe Weather Alert

**A line of strong to severe thunderstorms stretching across southern Illinois into portions of extreme eastern Missouri continues to move to the east-southeast at around 30mph. These storms will reach the Evansville, IN area within the next 45 minutes and are capable of producing wind gusts in excess of 40mph and nickel size hail along with frequent lightning. Work crews across this area are advised to seek shelter indoors as these storms move across the area. EJS Weather will continue to monitor the situation closely and issue further alerts as conditions warrant.**
